

DURANTS SCHOOL – POLICY DOCUMENT

Curriculum

May 2020

This policy is still the version we are using however, the senior leadership team currently have this version under review. Amendments to the policy will be made as and when discussions are finalised.

Reviewed & updated: May 2020 (Daniela Barzanti)

Next review date: May 2023

Principles

Provision of a rich, inclusive learning environment where every learner is empowered to progress and achieve at the highest level, is fundamental to the philosophy at Durants School.

The curriculum is the whole learning experience offered by the school. How children learn is as important as what they learn. Children are learning all the time and it is our responsibility to optimise learning opportunities throughout the school day, in curriculum time, during care routines and social times.

Within our established ethos, children will gain confidence in making choices and increase their knowledge and understanding of the world around them. All teachers and professionals engaged in teaching and learning activities will be partners in learning and continuously develop their skills and competencies for providing an appropriate range of strategies to inspire all our learners.

At Durants we believe in promoting equal opportunities for young people with autism so that they achieve their full potential by encouraging growth and independence in a challenging, safe and supportive learning environment.

Durants School Vision

Durants promotes a holistic environment for young people with autism and their families. Durants offers a person-centred curriculum that enables all students supported by their families to achieve and forge their own **path** into society and adulthood.

Preparing for independent living

Actively promoting good health

Teaching skills for employment

Helping to develop friendships, relationships and participate in the community.

The Curriculum

The aim of our curriculum is that all our young people become:

1. Successful students who enjoy learning, make progress and achieve their full potential
2. Confident individuals who are able to live safe, healthy and fulfilling lives
3. Responsible citizens who (where possible) make a positive contribution to society

We aim to ensure that the curriculum:

- Is broad, balanced and relevant focussing on functionality
- Will encourage all students to reach their full potential
- Is flexible enough to meet the needs of the diverse population within the school and matched to the individual needs of the student
- Builds on students' existing knowledge, skills and understanding.
- Reflects the multicultural nature of the local community and builds on British Values
- Develops confidence, high self-esteem and independence
- Develops a respect for other people and the environment
- Prepares students for the opportunities, responsibilities and experiences of adult life

At Durants School we give particular emphasis in our curriculum to the development of:

- Communication and Interaction Skills

DURANTS SCHOOL – Curriculum Policy

- Cognition and Learning Skills, including Literacy, Numeracy and ICT skills
- Social, Emotional and Mental Health skills, including CPSHE and RSE (Relationships & Sex Education)
- Sensory and Physical Skills including PE, Swimming, Individual Therapies, using the community and Life skills
- Work-related and Vocational Skills

As learners move through the school to Post 16, the emphasis shifts more towards preparation for adulthood and maximising independence. Where relevant, opportunities are provided for students in Middle and Upper Departments to participate in mini-enterprise activities, link courses and work experience in order to support them plan for the transition process and prepare for life after school.

Curriculum cycles can be found in Appendix 1.

Personalised Learning

We adapt the curriculum for individual learners according to their needs. We recognise pupils' strengths, needs and interests and build on these to promote achievement and success. We identify our pupils' needs through the Annual Review process and plan and adapt provision and learning opportunities to meet these needs.

We are committed to providing the best learning opportunities, including access to community resources and learning programmes that link classroom learning to life skills.

All children learn best from first-hand experience. To develop a full understanding of a concept a child must have relevant, practical learning experiences in different situations. We strive to provide opportunities to practice and apply learning in many contexts.

Alongside the traditional curriculum the school has a range of therapeutic inputs that support young people struggling with adolescence to access learning. These include Speech and Language Therapy, Sensory Integration/ Occupational Therapy, Music Therapy, Sensory Art and Rebound Therapy.

Planning

In planning the curriculum and putting this policy into practice, Durants School aims to ensure that:

- Lessons are challenging and have pace, rigour and direction for each of the students.
- A range of relevant teaching styles are employed to ensure that we meet pupil's individual needs.
- On-going assessment informs planning.
- Children's learning progresses smoothly through the school and prepares them for life beyond school.

It is the teacher's role within the school, through implementing the school's curriculum policies and practices, to ensure that they provide a variety of relevant experiences for children in the classroom that serve to develop knowledge, skills and understanding and enable children to value themselves as learners.

The curriculum must serve to develop the pupil as an individual, as a member of society and as a future adult member of the community with a wide range of personal and social opportunities. The curriculum, especially in Post 16, will be split into Sensory, Experiential and Independent Learning and strategies used will be pertinent to individuals, small groups and whole classes.

Assessment, Record Keeping & Monitoring

Reviewed and updated: May 2020 (Daniela Barzanti)

Next review date: May 2023

DURANTS SCHOOL – Curriculum Policy

Across the school the 'I Cans' are used to record students' working levels and progress made. Pathways to Independence is used with some students to measure progress in core skills.

In Post 16, students are assessed and can gain a range of accreditation at Entry Level, which includes a range of AQA, ASDAN and Pathways to Independence.

Class teachers are responsible for reviewing the overall progress and achievements of students and for maintaining the records in good order.

Pupil progress is reported to parents on a number of occasions during the school year. Written information is sent to parents as part of the Annual Review process and an end of year report and assessments are sent to parents in June. In addition Parents Meetings are held for all pupils twice a year. Parents are welcome to discuss their child's progress at any other time during the year, preferably by prior arrangement.

This policy will be reviewed every three years and will form part of the ongoing cycle of policy review.
